Subject: Contract Change Proposal #5, Jumper Cable and Cable 28V D.C. for
A/C Power Junction Boxes

Reference: (a) Contract BC-200 dated 7 December 1956
(b) 731697-C dated 12 September 1956.
(c) 731699 dated 7 November 1956.

25X1

Dear Sir:

A requirement exists to include with the Power Junction Boxes furnished in the referenced contract a Jumper Cable per reference (b) so that power may be supplied to forward component electrical parts of the aircraft during the periods when the configuration is not in place. A cable per reference (c) to furnish power from the aircraft to the A/C Power Junction Box is also required.

It is proposed that these cables be furnished with the A/C Power Junction Box Model PJ-73.

Accordingly it is requested that Schedule II of the reference (a) contract be amended to include the following:

<u>Item</u>	<u>Description</u>	<u>Unit Price</u>	<u>Total Price</u>
5	Delete	330.00	6,600.00
5-a	Twenty (20) production units of A/C Power Junction Box Model PJ-73 #731690-E including jumper cable #731697-C and power cable #731699.	405.30	8,106.00

Delivery - Thirty (30) days after receipt of contract amendment.

In view of the urgency of this requirement and in accordance with your verbal instructions, we are proceeding with manufacture of the cables.

We trust that this will meet with your approval and request that the contract of reference (a) be amended to add Item 5-a for a net contract price increase of \$1,506.60.

Very truly yours,

HYCON MFG. COMPANY
